Monde Nissin reports second quarter results showing a rebound in APAC BFB gross margins and achieving breakeven EBITDA for Meat Alternatives

- **Consolidated comparable revenue grew 7.0% for the first half, with second quarter growth moderating to 3.2%**
 - **Asia-Pacific Branded Food & Beverage (APAC BFB) second quarter revenue increased by 4.9% year-on-year on a comparable basis, resulting in a 10.0% growth in the first half. This reflected the continued growth in biscuits and other categories offset by the softening demand for noodles.**
 - **Meat Alternatives increased market share in the UK from 31.2% a year ago to 32.3% in Q2; however, second quarter revenue declined by 3.7% on a reported basis and 8.8% on a constant currency basis driven by continued category headwinds.**
- **Core gross margin in the second quarter improved by 24 bps quarter-over-quarter to 30.7%; APAC BFB core gross margin improved by 101 bps quarter-over-quarter and 46 bps year-on year on a comparable basis due to pricing and the run-off of expensive commodity lock-ins, offset by the decline in the Quorn gross margin**
- **Quorn's restructuring is substantially complete and on track to deliver previously guided savings; EBITDA in the second quarter was breakeven**
- **First half core net income attributable to shareholders declined by 14.1% to Php 3.5 bn year-over-year, reflecting the decline in the gross profit of the meat alternative business, increased marketing expenses in the APAC BFB business, and foreign exchange loss. Reported net income for the first half declined by 17.9% year-over-year to Php 3.5 bn due to the restructuring costs in the meat alternative business.**

MAKATI CITY, PHILIPPINES – August 9, 2023 – Monde Nissin Corporation (“Monde Nissin” or the “Company”; PSE stock symbol: MONDE) announced today its unaudited financial results for the first half of the year ended June 30, 2023. On a comparable basis, consolidated revenue for the first half grew 7.0% to Php 39.2 bn as Q2 growth tapered to 3.2%.

Core gross profit in the first half declined by 2.2% to Php 12.0 bn, while second quarter core gross profit declined by 2.6%. First half core gross margin declined by 290 bps to 30.5% due to dilutive effect of price increases versus inflation, higher overhead costs, and lower volume. Core gross margin in the second quarter improved by 24 bps quarter-over-quarter to 30.7%. Meanwhile, the APAC BFB gross margin improvement of 101 bps quarter-over-quarter due to pricing and the run-off of expensive commodity lock-ins was offset by the meat alternative gross margin decline of 290 bps.

Core net income attributable to shareholders for the first half declined by 14.1% to Php 3.5 bn, reflecting the decline in gross profit particularly in the meat alternative business, increased marketing expenses in the APAC BFB business, and foreign exchange loss. Reported net income for the first half declined by 17.9% to Php 3.5 bn due to restructuring costs in the meat alternative business.

Asia-Pacific Branded Food and Beverage (APAC BFB)

On a comparable basis, APAC BFB net sales for the first half increased by 10.0% to Php 32.1 bn. The domestic business grew 9.3% year-on-year to Php 30.0 bn in the first half due to the moderated growth in Q2 at 3.7%, reflecting the continued growth in biscuits and other categories offset by the softening demand for noodles. International revenue increased by 20.8% to Php 2.1 bn for the first half due to the robust growth in biscuits.

Core gross profit for the first half grew by 7.1% on a comparable basis to Php 10.2 bn with core gross margin down by 90 bps to 31.7% due to commodity cost inflation, partially mitigated by price increases. Meanwhile, core gross margin in Q2 improved by 101 bps compared to the previous quarter and 46 bps year-on-year due to pricing and the run-off of expensive commodity lock-ins. Core EBITDA for the first half grew by 4.0% to Php 6.6 bn compared to the same period last year, mainly due to gross profit improvement.

Meat Alternative (Quorn Foods)

Meat Alternative revenue declined on a constant currency basis by 6.6% in the first half and 8.8% in Q2 due to the continued category headwinds. On a reported basis, revenue for the first half declined by 5.0% to Php 7.1 bn. UK declined by 5.5% on a constant currency basis in the first half due to the challenging retail market. The foodservice business grew 11.3% in Q2, bringing the first half growth to 7.9%.

Core gross profit for the first half declined by 34.1% to Php 1.8 bn, while the core gross margin declined by 1,130 bps to 25.5% due to the dilutive effect of price increases versus inflation, lower

volume, and higher overhead costs. Meanwhile, core gross margin declined by 1,154 bps year-on-year in Q2 and 290 bps compared to the previous quarter.

Core EBITDA was a loss of Php 106 mn for the first half due to lower revenues and gross profit. Meanwhile, Q2 core EBITDA showed some recovery and was Php 10 mn due to lower operating expenses.

Note: Comparable year-on-year growth reflects the reclassification related to PFRS15.

Concluding Comments

Henry Soesanto, Chief Executive Officer, commented, “The APAC BFB business saw topline growth moderate during the second quarter as volume growth slowed down in all categories, most noticeably in noodles. This reflects what we have observed over the past few months and what appears to be an overall macro trend of more modest consumption across many food and beverage categories. However, despite this slowdown, we saw good improvement in our gross margin compared to the previous quarter as well as year-over-year which we expect will continue as the year progresses. Looking ahead, we expect the third quarter to show better year-on-year growth, being helped by last year’s lower base.”

Commenting on the Meat Alternative business, Mr. Soesanto went on to say “The previously announced restructuring of our meat alternative business has been substantially completed and we are on track to deliver previously guided savings. Despite the continued category challenges, the EBITDA improved during the second quarter and we are cautiously optimistic that this will continue in the coming quarters.”
